00 — START HERE FIRST • 30-MINUTE QUICK-START ROADMAP

How to Use Your Free Store Margin & Cart Audit Starter Kit

Follow this exact 4-step sequence to audit your SKU unit economics, read the LuminaHome turnaround case study, run the offline calculator web app, and complete your 72-Hour Margin Rescue plan.

1. Your 4-Step, 30-Minute Execution Sequence

STEP 01 • VISUAL OVERVIEW — Minutes 0–5 (5 Mins)

See the 5-Stage Store Profit Engine

`00-ECOSYSTEM-MASTER-MAP-POSTER.png + cheat-sheet-ch01.png`

Open the two high-resolution visual architecture posters first. See how SKU Validation, B.U.Y.E.R. Product Page Bundles, 4-Touch Cart Recovery, 24/7 AI Support, and Friday CEO Reviews lock together.

> **Goal: Memorize the 3 non-negotiable unit-economics formulas below before reading Chapter 1.**

STEP 02 • CORE READING — Minutes 5–20 (15 Mins)

Read Chapter 1 & The LuminaHome Case Study

`tier0-free-sample-chapter01-and-audit.pdf (34 Pages)`

Read Chapter 1 to see why a store generating $42,000/month at a 2.1x platform ROAS was silently losing -$3,180/month—and how replacing a 20% discount code with 3-tier volume bundles swung net profit to +$11,420/month.

> **Goal: Identify which of the 5 Margin Leaks is currently draining your store's bank balance.**

STEP 03 • INTERACTIVE AUDIT — Minutes 20–25 (5 Mins)

Run Your SKU Numbers in the Offline Web App

`ecommerce-os-app.html (or sheet1-unit-economics...csv)`

Double-click **ecommerce-os-app.html** to open the companion app in any browser (works 100% offline). Enter your retail price, product cost, 3PL shipping, and ad CPA in Module 1, then test Prompts 1.1–1.5 in Module 2.

STEP 04 • 72-HOUR ACTION PLAN — Minutes 25–30 (5 Mins)

Complete Your Fillable Chapter 1 Action Workbook

`chapter-01-workbook.pdf (6 Pages, Fillable PDF)`

Open the interactive workbook right on your computer (or print it). Fill in your 3-SKU Margin Audit Table, flag any SKU with a Break-Even ROAS above 2.10x, and check off your 7-day execution boxes.

> Goal: Calculate your exact Break-Even ROAS and Pre-Ad Contribution Margin (%) in 60 seconds.

> Goal: Lock in your 72-Hour Margin Rescue changes before spending another dollar on ads.

2. Three Core Equations to Check in Step 3

EQUATION 01 • PRE-AD MARGIN

`Net AOV - Landed COGS - 3PL/Fees`

Target Floor: >= 60% of Net AOV

EQUATION 02 • BREAK-EVEN ROAS

`Net AOV / Pre-Ad Margin ($)`

Healthy Target: <= 1.65x ROAS

EQUATION 03 • MAX ALLOWABLE CPA

`Pre-Ad Margin ($) - Target Profit ($)`

Scale Gate: Actual CPA < Max CPA

3. Complete Directory of Files in This Starter Package

ORDER	FILE NAME	TYPE	HOW TO USE IT
01	`00-START-HERE-READING-GUIDE.pdf / .html`	Visual Guide (2p)	Read this roadmap first so you know the exact 4-step order.
02	`00-ECOSYSTEM-MASTER-MAP-POSTER.png`	HD Poster	View or print the 5-Stage Store Profit Engine architecture map.
03	`cheat-sheet-ch01.png`	HD Cheat Sheet	Keep next to your monitor for instant unit-economics formula reference.
04	`tier0-free-sample-chapter01-and-audit.pdf`	Book Sample (34p)	Read Full Chapter 1 + 5 AI Prompts + LuminaHome Case Study.
05	`ecommerce-os-app.html`	Offline Web App	Double-click to open in any browser; run Module 1 & Chapter 1 Prompts.
06	`sheet1-unit-economics-and-roas-calculator.csv`	Excel / Sheets CSV	Open in Excel or Google Sheets for spreadsheet-based SKU modeling.
07	`chapter-01-workbook.pdf`	Fillable PDF (6p)	Type directly into the form fields to complete your 7-day store audit.

Want to activate all 10 Chapters, 62 AI Prompts/Scripts, 8-Tab Excel Matrix & Full Pro App Mode?
Upgrade to **Tier 2 ($59)** or **Tier 3 Complete Enterprise Suite ($99)** to receive the full 259-page book, 10 workbooks, 7 Word SOPs, 3 slide decks, and your `PRO-ACCESS-LICENSE-KEY.txt` activation code.
